

Up-grading of Plumbing Level 3 Accreditation Status to Plumbing Level 4

TO: CETA Accredited Training Providers
CETA Regional managers
CETA Constituent employers
CETA Constituent learners

Please be informed that the National Certificate: Construction Plumbing level 3 (ID No. 21853) qualifications have been replaced by the Further Education and Training (FET) Certificate: Construction Plumbing level 4 (ID No. 65891). Against this background, The CETA invites all providers who were accredited against the qualification 21853 level 3 to upgrade their accreditation status to qualification 65891 level 4.

All providers who intend to cover the entire scope of the qualification 65891 are to ensure that their assessors have undergone RPL assessment in order to be accredited for unit standards highlighted in yellow; however providers can be accredited on all other unit standards using assessors that are in possession of a plumbing trade test qualification.

Further note that the unit standards 115753 and 7876 will not be registered by any provider at this point as these standards belongs to ETDP SETA.
